-------	--------------	---------------------

PROFILE	<p>I am Informatics student in Austria in 3rd Semester working with ReactJS framework on a daily basis. I have developed multiple Web apps in ReactJS together with React Hooks, Router and Redux for my personal use, practice and school. I also have knowledge in Python programming language mostly used for school work.</p>
---------	---

Currently all my studies are online meaning I have some extra time. I would love to get some real-world experience in Web Development field.

EMPLOYMENT HISTORY

May 2020 – Present	Freelance Web Developer If it is possible I try and look for some Web Development offers on freelance websites so I can gain more experience
--------------------	--
